1963

We live for the sake of tradition, heritage, the future, and, of course, for the sheer joy of living. Many strange and wonderful events cross our paths as we journey through this sojourn on earth. Beginning at the age of six, we enter what is known as elementary school, and then we are advanced at the age of 13 to high school. Here we spend approximately six hours of each week-day. To us, the students, school has proved to be a medium through which we obtain such things as guidance, friendship, inspiration, memories (both good and bad), and above all, our store of knowledge. Tomorrow is untouchable unless we possess these things.

In this, our ninth RAIDER, we the citizens of tomorrow, attempt to re-capture some of the memories and activities of our society today which is Woodlawn High School.

This was a year of years for us here at Woodlawn. We obtained our dream—a new school building—which has proved to be an inspiration to each and every one of us. In addition to the new building, Woodlawn welcomed to its family twelve new teachers and many more new students. With the welcoming of new teachers, we bade farewell to two veterans of our beloved family—Mrs. Wirt D. Cox, (lovingly known by many of the students as "Granny" Cox), and Mr. H. G. Cooley.

In this term-1962-63, we, the youth of Woodlawn, hope to accomplish unlimited deeds and strive to attain high goals by which we better ourselves. However, we could hardly exist in any realm without recreation and good clean fun. We have included in this yearbook our joys, hopes, pleasures, work, and aspirations. We hope you will thoroughly enjoy it.

Reminder

The REMINDER is a very important part of Woodlawn's school life. Through its facilities, the students express their desires, complaints, and praise concerning the school. The paper, written and edited entirely by the student staff, is published every six weeks. The regular editorial staff of the paper keeps an open ear constantly tuned for news-worthy items. The purpose of the paper is to get the facts about ideas and events which would be of interest to the student body.

The Science Club is an organization of students who are interested in the study of science and its many fields. Each year the club members make special projects and exhibits for the different science fairs.

The club itself is designed to promote scientific interest among students and develop talents and skills gained in various science classes.

The new laboratories and the equipment in them improved the Science Club greatly and gave them a chance to widen their knowledge in the field of science.

Cheerleaders

The Cheerleaders are a group of school-spirited girls who use their enthusiasm and energy to promote participation in athletic events and good sportsmanship among spectators.

This year the Cheerleaders were busy with various activities in the school. The Snow Queen Contest was sponsored by the Cheerleaders in connection with the Junior Class and the Junior-Senior Prom. The first dance in the new building was sponsored by the Cheerleaders who gave the profits to the Glee Club for their robes.

The new school seemed to have caused new enthusiasm and school-spirit among the students. At times, the going was rough, but these girls gave Woodlawn a good reason to be proud of its cheering squad.

What a relaxing time the lunch period is for faculty members! A round table discussion—no doubt!

Such an entertaining afternoon! Elementary students and teachers alike participate each afternoon while waiting for the bus.

Faculty, too, enjoy Junior-Senior banquets.

WILLARD BULLIONS and CAROLYN HACKLER were awarded the American Legion Award in 1962 for achievement and citizenship.
